There are only 30 centers across the nation with this recognized distinction.

In 2014, the practice also received the prestigious Diamond Award by Allergan, ranking Premier Image in the top 2% of all practices nationwide for the use of injectables for facial rejuvenation. Dr. DeJoseph is an international trainer, lecturer, author and thought leader for laser treatments, facial surgery and injectables. Dr. DeJoseph is also the creator of the VUE™ Volume Under Eye enhancement. This procedure is designed to rejuvenate the area under the eyes without having to go under the knife. This revolutionary procedure is non-invasive, in-office and requires minimal to no downtime. The results from this procedure can last from a year up to two and a half years.
