

On Demand Laser Tattoo Removal

FDA-Cleared and only available in Atlanta at Premier Image Cosmetic & Laser Surgery

**REDUCE YOUR
TATTOO
TREATMENTS
IN HALF**

On Demand Laser Tattoo Removal

The On Demand Laser Tattoo Removal treatment, *only at Premier Image Cosmetic & Laser Surgery*, uses the talents of an Expert Licensed Laser Practitioner, a state of the art laser, and an FDA-cleared tool that can be used to reduce the number of laser tattoo removal treatments in half! Premier Image is the first practice in the southeast to have this technology.

Before On Demand Laser Tattoo Removal, twice as many treatments were needed for satisfactory fading of the tattoo and the treatments needed to be spaced several weeks apart for adequate healing. This means that a large, brightly colored, or complex tattoo requiring many laser sessions could have taken a year or more of treatments to fade adequately.

On Demand Laser Tattoo Removal has allowed patients to have faster results by speeding up both the treatment process and recovery time.
